Summer Home Learning Assignment
Comprehensive Science I

1. Follow the directions for the virtual lab: “How do animal and plant cells work?”
http://www.glencoe.com/sites/common_assets/science/virtual_labs/E08/E08.html to review cells and their organelles.
2. Follow the directions on the left side of the menu (Objectives & Procedures) and complete the 5 Journal questions.
3. Please **type or write out the responses in complete sentences** and submit to your respective science teacher on the first week of school, for a grade.
